

Forschergruppe Arthrofibre

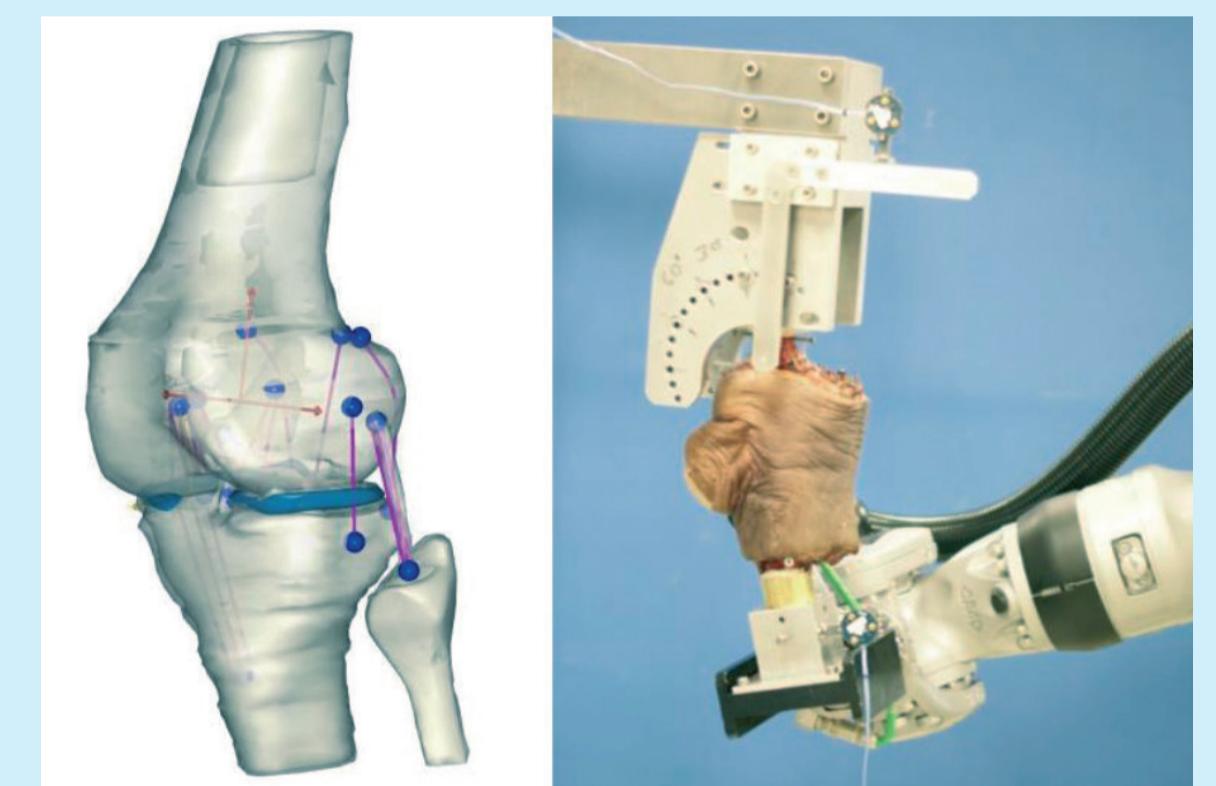

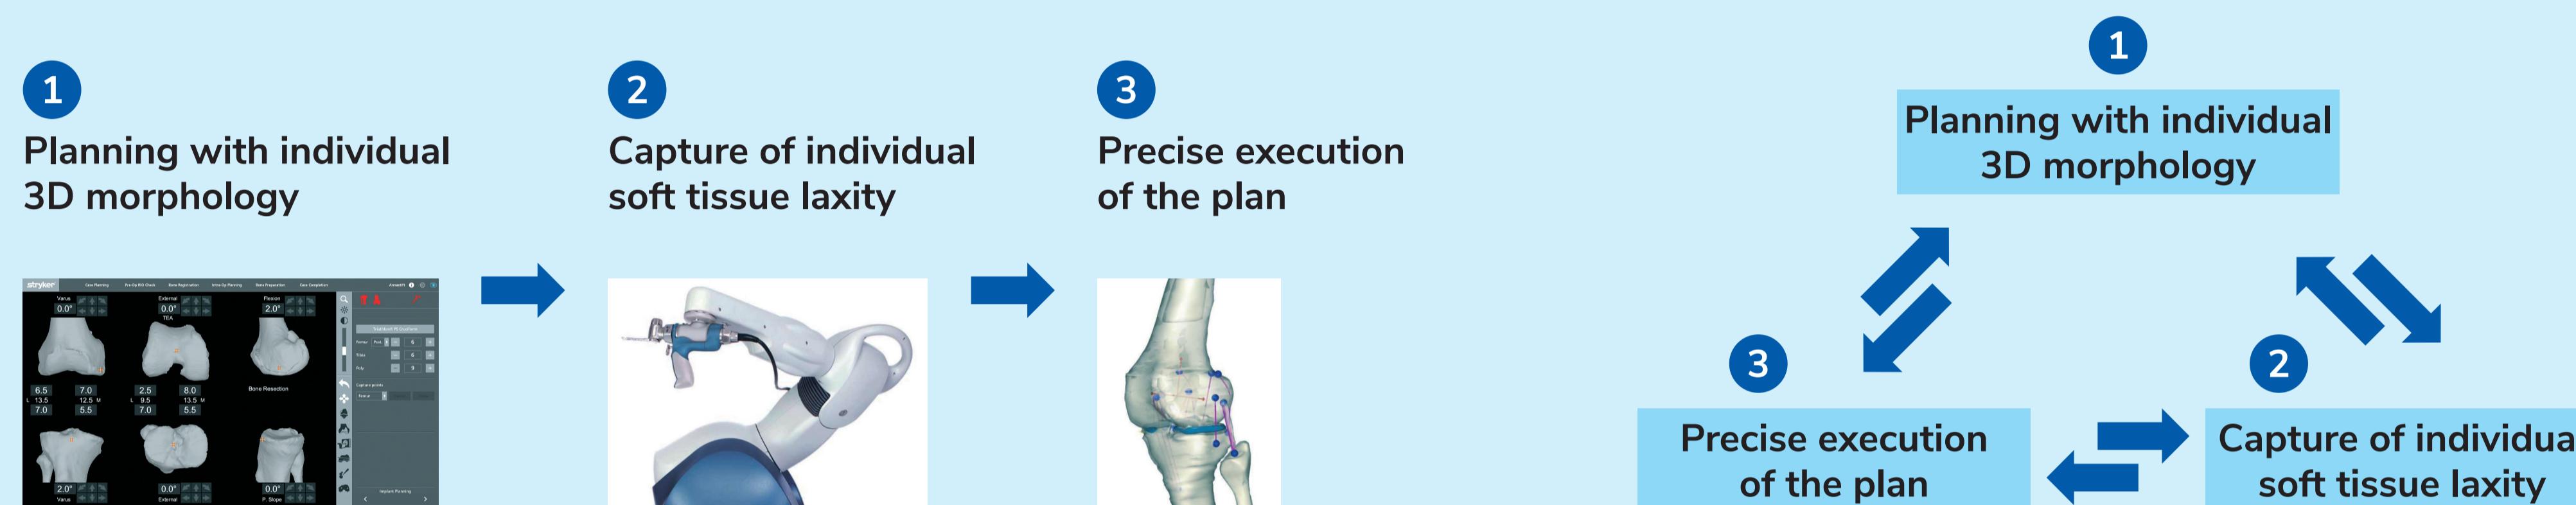

Understanding intervention-induced fibrosis (Inter-Fib)

First funding period: focus on shared and distinct pathomechanisms of AF and IIF

First funding period: Focus on shared and distinct pathomechanisms of (molecular/biochemical and cellular)

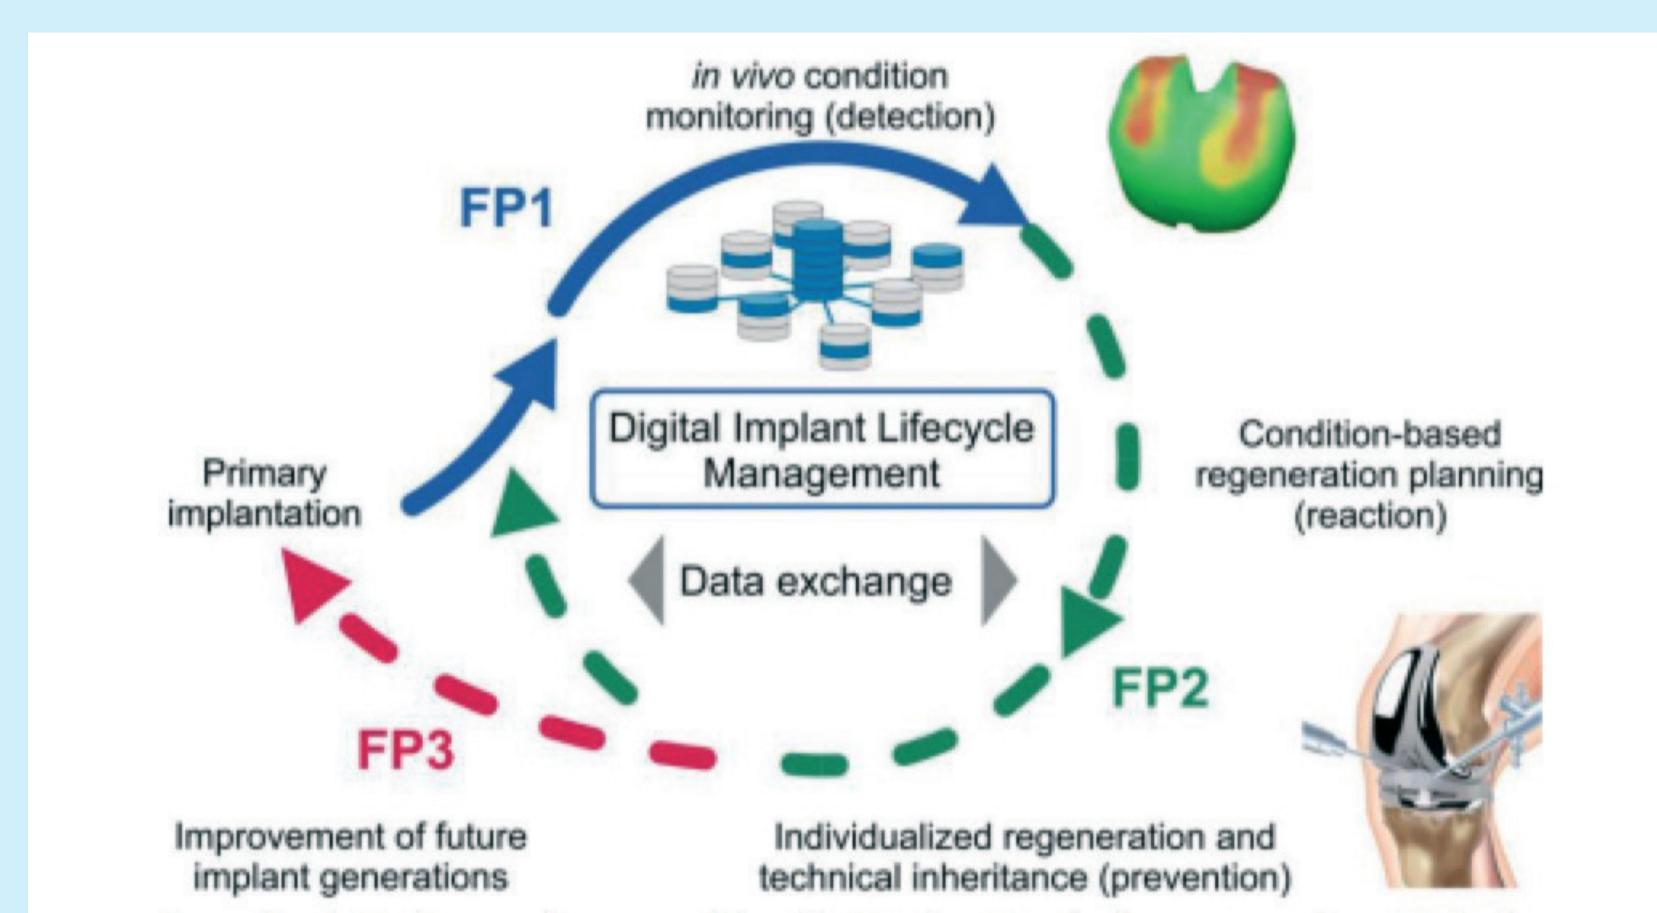

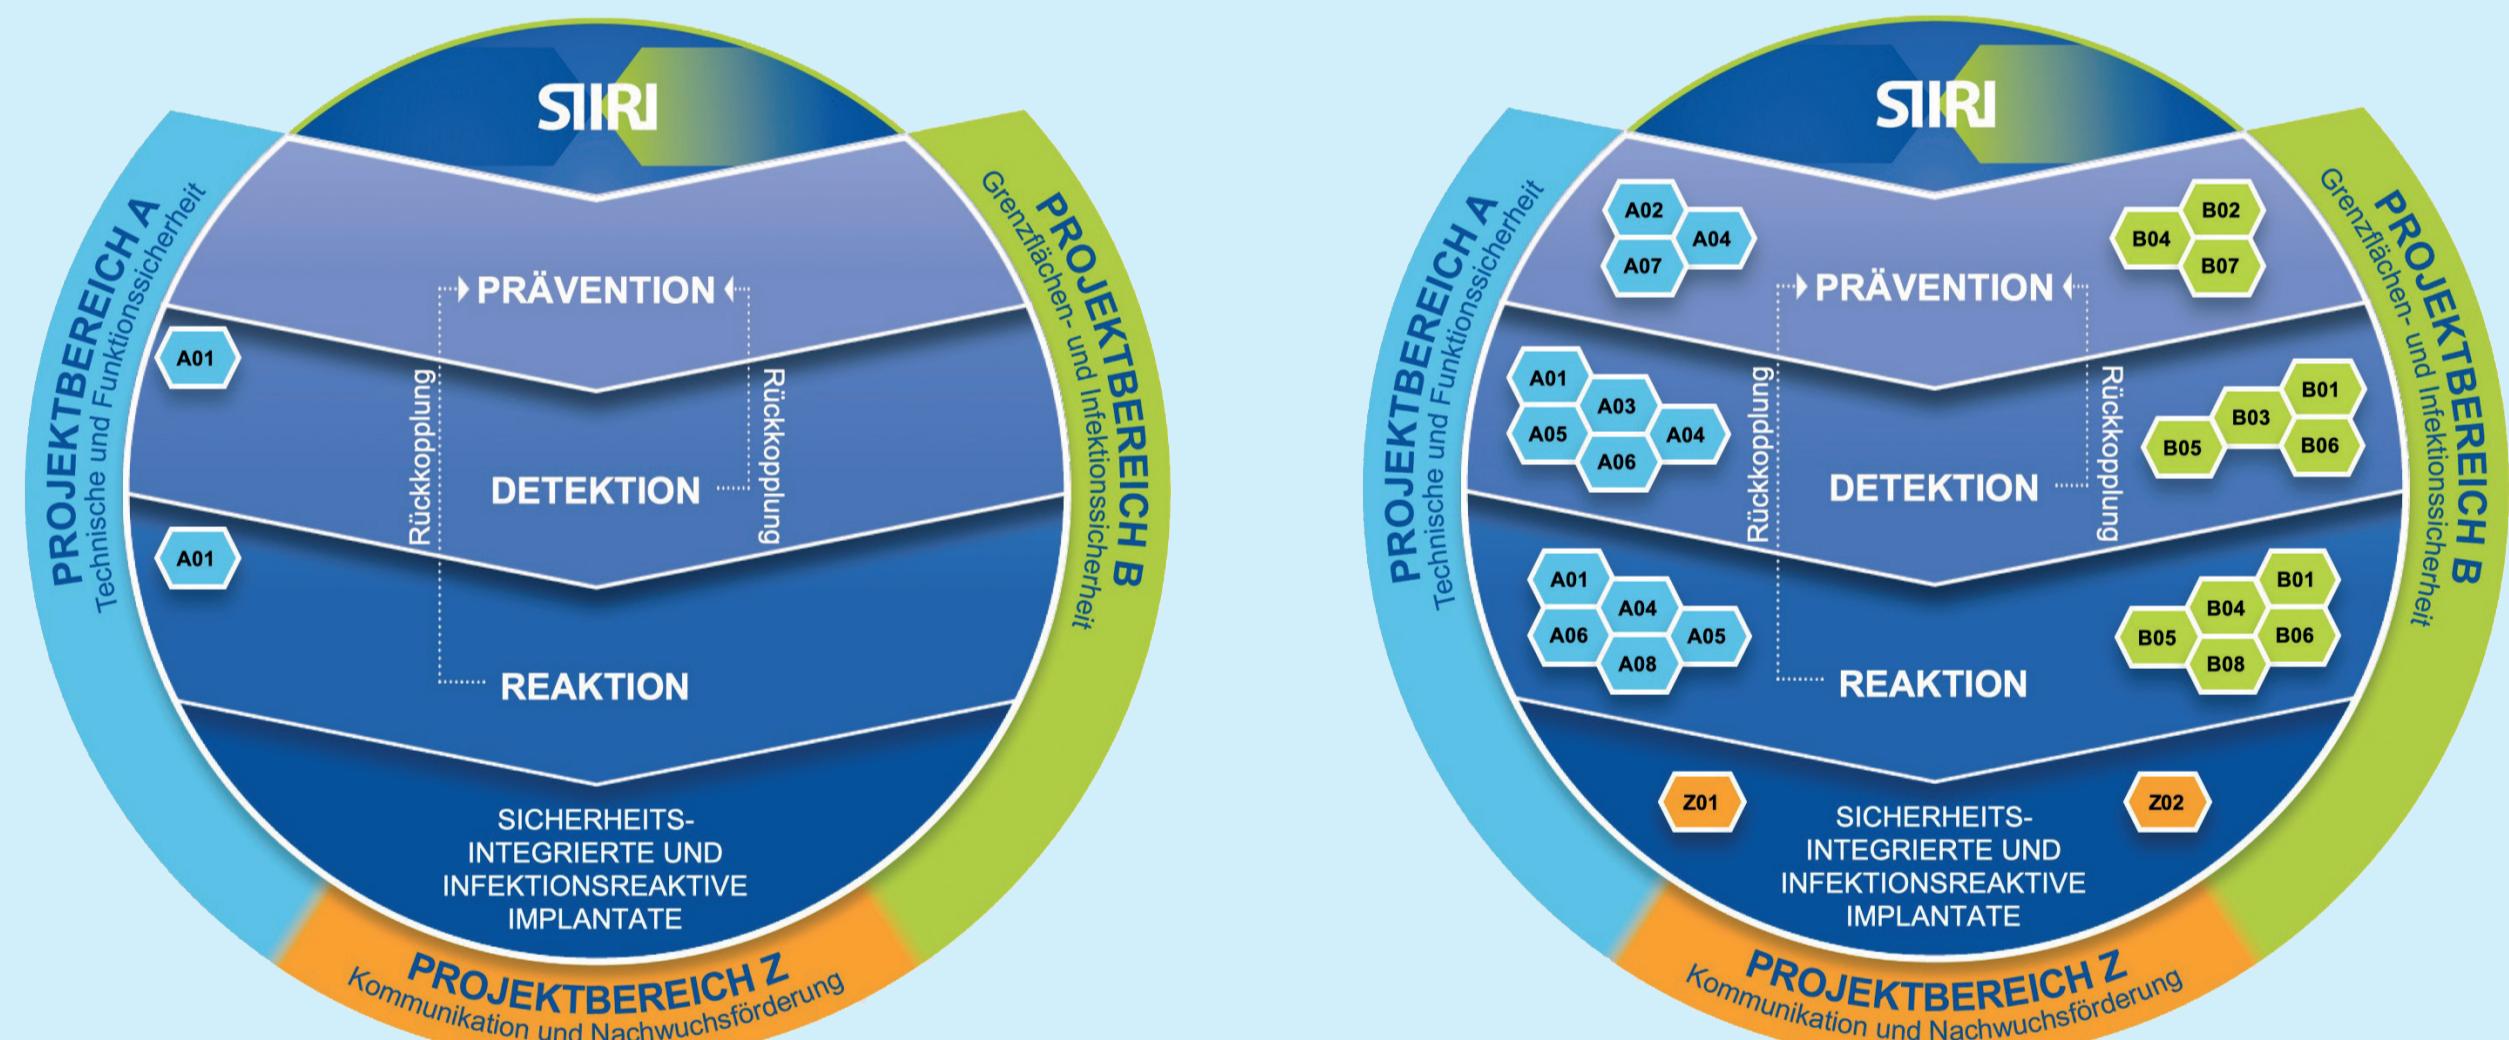

Roboterassistierte Chirurgie

DFG Project # SCHW 1828/1-1

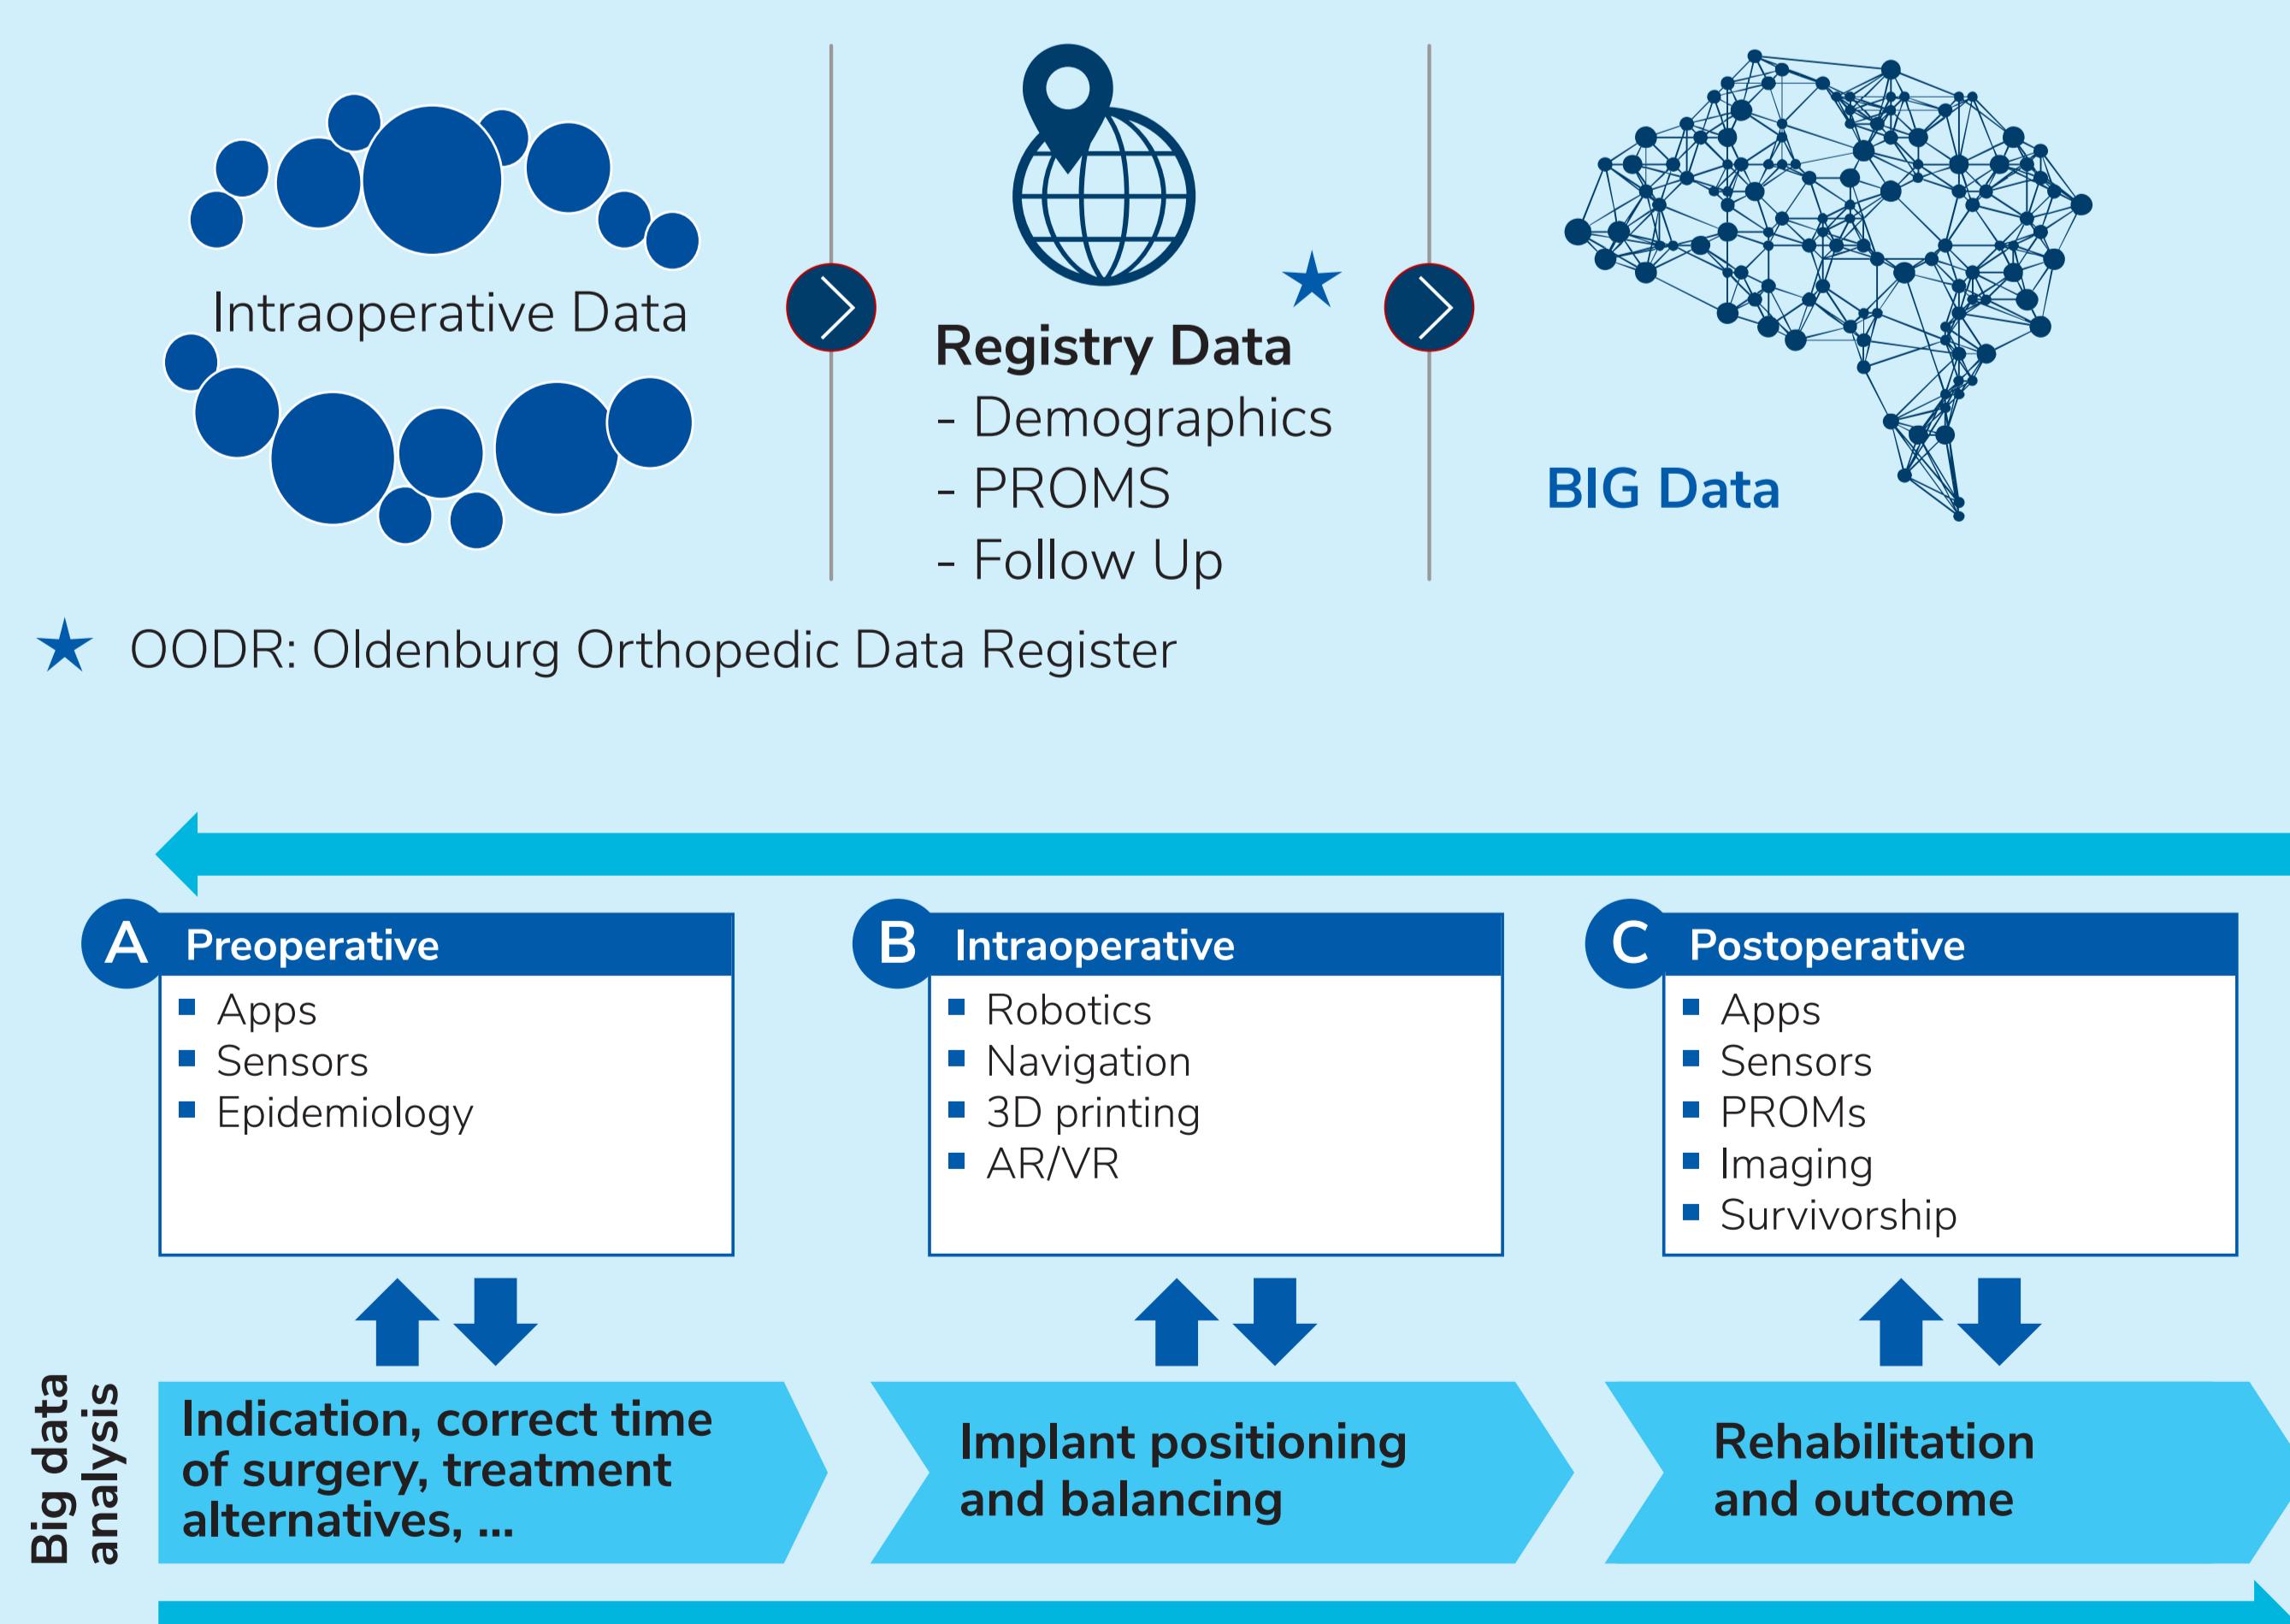

Schwarze, Hurschler, Savov und Ettinger

DFG Sonderforschungsbereich: Safety Integrated and Infection Reactive Implants (SIIRI)

Concept for early detection
and regeneration of defective
implant components and
its development over three
funding periods (FP1-3)

BIG Data

Cross-Border Research
